Use proofreader marks.

The Blue Whale is the largest animal known to have ever lived, they can be up to 98 ft in length and 173 tons in weight. You might be surprised to learn that a blue whales heart alone ways about 400 pounds, and is approximately five feet long four feet wide and five feet tall. In fact the heart is so massive that a human being could swim threw the arteries.

\*\*Ask: "Whose HEART is it?" \_\_\_\_\_ shows ownership.
